

DINDIGUL, TAMIL NADU — INFRASTRUCTURE CONTRACTOR

Roads, power lines & quarries — built to last.

Sri Aathithya Infra Project Pvt Ltd designs, builds and maintains national highway, rural road and EHT power infrastructure across South India — from earthworks to the final lane marking.

ABOUT THE COMPANY

A dynamic, professionally managed infrastructure company delivering design engineering, construction and contracting solutions across Tamil Nadu.

With a strong presence across the southern region, we've executed mass earthworks, road construction, EHT/HT line shifting, site development, transportation and road furniture installation — backed by our own quarry, crusher plant and vehicle fleet.

Driven by quality, timely delivery and cost efficiency, we combine modern construction practices with experienced manpower and disciplined project management on every site.

01 Safety in all operations
02 Transparency in business
03 Reliability in execution
04 Regulatory compliance

GROWTH ON RECORD

Five years of compounding turnover.

Audited annual turnover, FY 2020–21 through the current ongoing financial year — a track record clients can verify.

WHAT WE DO

Six disciplines, one contractor.

From state highway construction to power-line shifting, every service is delivered in-house with our own plant and fleet.

01
State NH / DRDA Road Construction
Earthworks, GSB/WMM/DBM & BC laying, grading, curing and compaction for state and rural roads.

02
NHAI / MoRTH Road Maintenance
Annual maintenance, hotspot rectification, lane marking and road-asset upkeep on national highways.

03
EHT / HT Line Shifting
Land acquisition, foundation works, tower erection, conductor stringing and line-clearance coordination with power grid authorities.

04
Quarry Operations & Crushing
Overburden removal, controlled blasting and aggregate crushing from our own 75-acre quarry and 350 TPH plant.

05
Road Safety Furniture
Crash barriers, solar blinkers, signage, thermoplastic marking and speed tables for accident-prone stretches.

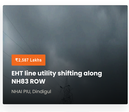

06
Utility & Pipeline Shifting
Coordinated relocation of utilities and pipelines ahead of road and transmission-line works.

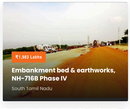

SELECTED WORK

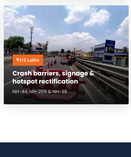

Projects on the ground right now.

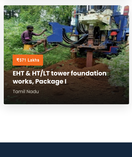

A sample of ongoing contracts — full portfolio available on request.

OWNED PLANT & FLEET

The machinery behind every deadline we meet.

17 categories of equipment, wholly owned — no dependency on hired plant.

6	32	15	6	2	300 TPH
Excavators	Tippers	Rock Dumpers	JCB 3DX / Cranes	Sensor Paver Finishers	Sand Wash Plant

GROUP COMPANIES

One group, four specialisations.

Sri Aathithya Blue Metals
350 TPH crusher plant and 300 TPH sand wash plant — a district pioneer in aggregate production.

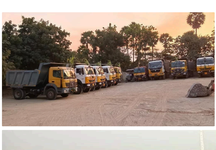

Kannan Contractor
Founded 2018, construction contracting built on lean manpower and fast execution.

Aathithya Blue Metals
Crushed aggregate supply for NHAI, MoRTH, state highways, DRDA and local building works.

Sri Aathithya Sands
District leader in manufacturing and supply of M-Sand & P-Sand for all construction works.

FROM OUR SITES

On the ground, across Tamil Nadu.

GET IN TOUCH

Request a site visit or quote.

Tell us about your project — road, EHT line or quarry supply — and our planning team will respond within one business day.
